3) The Budget estimates of the Corporation have been got reviewed by the Auditor, Bangalore Corporation and are retransmitted with the following observations

The Corporation of the City of Bangalore have adopted an Opening Balance of Rs 4,58,200/- under Revenue Head for the year 1955-56 as against Rs 1,11,980/- which was the estimated Closing Balance of the year 1954-55, as per Government Order No L 12740-6/C M 11-54-8 dated 19-1-1955, sanctioning the Budget Estimate of the Corporation (as revised) for 1954-55. The Auditor of the Corporation has brought to my notice that he could not ascertain the actual Closing Balance of the year 1954-55 as the account books of the Corporation (Cash Books etc) for that year had not been closed even at the end of April 1955 and that the collections from 1-4-1955 onwards were being booked against the previous year in spite of a special letter addressed by him to the Commissioner of the Corporation bringing to his notice this serious irregularity and requesting him to close the accounts immediately. In the absence of any information as to the actual closing balance for the year 1954-55, the Opening balance adopted by the Corporation for 1955-56 has been accepted tentatively, in order to balance the Budget. It is highly irregular on the part of the Corporation

to have kept open the accounts of the year 1954-55 even after the 31st March 1955 and to have credited the collections of the current official year in the accounts of the last year. The corporation may be directed to invariably close the accounts books at or before the midnight of the last day of the year at least in future, and to avoid such grave irregularities in account.

(4) It is reported by the Auditor of the Corporation that the reconciliation of the Cash Account balances under Debt Heads with those of the Ledgers had not been got effected by the Corporation in spite of direction of Government in this behalf in their order No L/9. 20-26/C M 11-54-4 dated 24-5-54 and that the Debt Head position remained the same^{as} at the beginning of the last year. The Opening balance under the Debt Head for the year 1955-56 is shown as a plus figure indicating that the liabilities of the Corporation are more than their assets, and that the financial position is not sound. The Corporation may be requested to get the Debt Head balances reconciled without further delay, in order to determine the exact financial position of the Corporation.

Corporation Budget for 53-56

Controller The minimum closing Balance should be Rs one lakh. The closing balance as app^d now will be Rs 2,56,045/- Thus has been arrived at the assumed opening Balance on 1-4-55. I phoned to the Com^r to know the correct opening Balance on 1-4-55. Tho' one month and 17 days are over, the Corpⁿ office is unable to furnish the closing balance on 31-3-55 (to the opening Balance on 1-4-55) This clearly shows that the Treasury and the Revenue A/c of the Corpⁿ are not at all maintained in a satisfactory condition. It is better to depute one Senior Auditor or Assistant Controller of the Comptroller's office for this purpose and see that the Registers are posted up to date ~~and~~ the proportionate salary of that officer may be recovered from the Corpⁿ. This point is for others.

/ Next is about providing the Steamboat Allowance (vide item no 35 on Page of the draft G.O.) The Minister for P.H.

and L B G instructed the Comr & the Mayor to improve the facilities in Ulloor tank to reach the island and to improve the halting places on the islands. Therefore the provision of Rs 32,500/- seems to have been suggested by the Comr. Instead of reducing that item it is better to retain that item of Rs 32,500. If this is accepted then the closing balance will be ~~reduced~~ from Rs 2,56,045/- to Rs 2,43,545.

2,43,545

12) The Comr may urge that they may be allowed to spend about Rs 1 lakh more because the closing balance is over & above the maximum of Rs 1 lakh. Govt may agree to spend that amount after the Registers are posted up to date and after months in the year are over & the financial position of the Comr may be ~~watched~~ examined after six months on the receipt side.

13) As to lump sum of Rs 10 lakhs to the Comr & the B C to make the correct closing Bal for last year & the Op Bal for this year in two days.

The opening balance for the year 1955-56 was originally adopted adding the debt head balance of Rs 1,26,345/- as this was a plus figure as indicated in para 4 of this office unofficial reply No 96/CSA dated 11-5-1955. As the revised opening balance now furnished by the Commissioner under "Debt Head" is a minus figure, the sum of Rs 340787/- has to be deducted from the Revenue balance to arrive at the actual opening balance on 1-4-1955. It is irregular to have a balance of the year 1954-55 even as far as 31-3-1955 as to have credited the collections of the current financial year in the accounts of the last year. The accounts should be closed invariably at or before the midnight of the last day of the year, with a view to avoid irregularities in accounts and to arrive at the actual closing balance.

It has been observed in the letter 1,23-20/11-54-4 dated 24-5-1954, that the reconciliation of the accounts of the year under consideration with the ledger accounts should be attended to. It is seen that the ledger accounts still remain in the same condition. This may be attended to immediately.

Under Section 10(1) of the Corporation Act, the audit for 1955-56 should have been completed by the Corporation at least three weeks before the expiry of the year and it is actually passed on 6-4-1955. This is a serious irregularity which could have been avoided.
